- New Home Loan interest rate comparison report
- Sibor & SOR report (23 years Sibor and 6 years SOR chart)
- A CRM (customer relationship management) system where you can track your customer's loan cases and submit loan cases directly to banks.

Helpdesk Support: Under this introducer agreement, PromiseLand's financial advisors are able to use iCompareLoan's helpdesk for property loan enquiries and put home loan referral deals directly via PropertyBuyer (CoreConcept Systems Pte Ltd) and take advantage of PropertyBuyer's volume relationship with some banks to obtain better terms.

The Managing Director of PromiseLand David Choo says,

"We are very happy with the results so far in the using www.iCompareLoan.com/consultant service. In the past, we tried to provide mortgage consulting services to our advisors, but this business is very costly as we need to provide in-house support. High banker turnover and frequent Home Loan rates changes add to the complexity. Moreover, there is a steep learning curve involved for financial advisors to learn about home loans to be able to talk intelligently about it. With www.iCompareLoan.com/consultant service and its advanced reporting and embedded Financial event time line and iCompareLoan helpdesk, our advisors are now delivering more home loan deals. We believe the enhanced capability of our financial advisors will help us become a more complete and holistic wealth management company."

"We are delighted to have delivered upon our promise of lower cost of administration, and increased profits to PromiseLand Independent who uses our home loan reporting tool & helpdesk. With this introducer arrangement, we hope to gradually build enough property loan volume to enable us and our partners to benefit from better terms being offered by Singapore banks," says the Managing Director of CoreConcept Systems.
